

Assessment Information in My Schoolnet

On the Schoolnet home page (My Schoolnet), find student assessment information to identify and organize students based on recent assessment data.

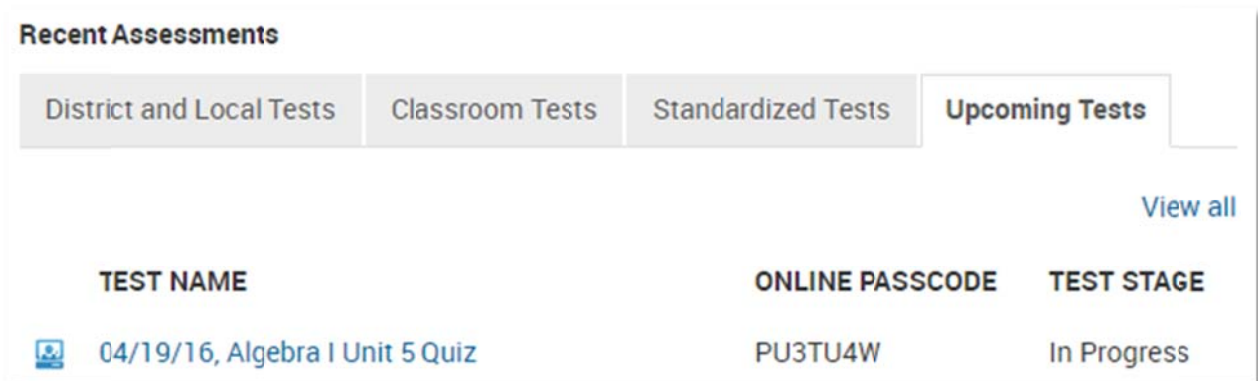

Use the My Classroom 'web part' to select the class of students you wish to view. Administrators have additional menus to select a teacher and school if applicable.

View Information About Recent and Upcoming Assessments

Teachers typically have a Recent Assessments section on their home page.

Note: Administrators in some districts will also see this 'Classroom Assessment Monitor web part.' If it is missing, a site administrator has the option to add it site-wide.

Useful information is organized as follows:

- District and Local Tests – see data on benchmark (interim) assessments that are in progress or completed
- Classroom Tests – see data on in-progress and completed classroom tests (tests that you created for your students or that were assigned or recommended by an administrator)
- Standardized Tests – see results for available standardized tests (including prior-year tests)

Assessment Information in My Schoolnet

- Upcoming Tests – see a list of up to 10 tests scheduled today or earlier, along with test names, online passcodes and test stage:
 - Click the Proctor Dashboard icon to view student progress while testing, activate student response ‘clickers’ and view student usernames (usernames do not apply if students sign in to Schoolnet through another portal)
 - to Click a test name to view test details
 - Click the **View all** to see all tests related to the selected section.

Standardized Tests Tab

Under the Standardized Tests tab, select a test date or leave the default value, the most recent standardized test data per student.

The numbers in the cells represent the percentage of students in a section who earned a proficient score for the tested subjects. Scores appear by student for the selected subject. Click another subject to change the view. The colored boxes indicate the score groups.

Under “Filter By Score Group,” roll your cursor over a square to view the associated score group or click the square to filter the students.

Click **Standards Mastery** to run a report of the number of students per score group and subject for the selected class.

The District/Local and Classroom Tests Tabs

The District and Local Tests and Classroom Tests tabs function the same way; the only difference is the source of the tests. Under each tab, find data for the three most recent current-year tests. Roll your cursor over a test name to see the test title.

District and Local Tests	Classroom Tests	Standardized Tests	Upcoming Tests
Life and Physical...	05/19/2014	70.5%	
Social Sciences a...	05/05/2014	51.0%	
Mathematics	03/17/2014	52.9%	

* Numbers displayed represent average percent correct of section in tests

For the test selected from the menu, view the Comparative Performance area to compare the percentage of students per score group across the section, school, and district. The color indicates the score group. Under “Filter students,” roll your cursor over a square to view the associated score group, or click the square to filter the students.

Next to “Reports,” use the shortcut links to access the Classrooms Standards Mastery, Skills Analysis, and Item Analysis reports for the selected test.

Below the filter blocks, find results for each student, sorted by score group. Once a student has results for more than one test, use the last column to compare the currently selected test score group with how the student performed on other recent tests. The colored square with the thin black outline is the selected test. To view the student’s test history, click the student’s name to access benchmark and classroom test data in the student profile.
